

Ben Thelin

Faith Statement – May 30, 2010

Hi, my name is Ben Thelin and over my years of confirmation, I have learned a lot about my faith. I am ready to commit my life to Jesus because he died for my sins and this is important. In confirmation class I have learned about all the reasons that Jesus is important. St. Paul's has supported me by giving me a place to learn more about, and live my faith.

God has given me the gifts of being smart and in good health most of the time. I plan to use this by helping people with problems that they may not be able to solve themselves. I can also usually fix computers and teach people how to better use them.

I plan to commit myself to this community by staying a part of it, and supporting it. I would like to thank my parents for dragging me here every week even if I did not want to come. I would also like to thank the rest of my family for being supportive of my decisions.
