

Samantha Dias

Even though this is my first year at this church I went to school at St. George ever since I was three years old. Beginning in kindergarten or first grade we began attending masses every Friday morning and had religion class every day to help us grow in our faith at such a young age.

Becoming an adult in the church's eyes is what I have always aspired to do. That was my goal during all those years of schooling and religious education.

Jesus to me is our savior. Even though we go against him and sin he will always forgive each and every one of us no matter the severity. All he asks is for us to ask him for the forgiveness. God has also given me my special talents that include doing well in school being athletic and being able to be involved with every club and organization I belong to. I use the gifts God has given me by doing community service by choice and not just because there is a required 20 hours a year to be in the honors academy. After confirmation I plan to volunteer and be involved in the church as much as possible.
